Hi PJ
I'll call tomorrow to talk
These are the boilers Boulder Winnelson is carrying in place of triangle tube

They have a better warranty and Winn has provided these for a few other plumbing contractors

Talk tomorrow

Hey Todd. An appropriately sized one of thoes would work just fine. Assume you're thinking the SFC series. The tekmar already has the controls to talk to it.

Me

The baby one is probably adequate (as we're surviving on 60% of that with the heat pump) tho 160 would be better for water heating. 199 seems like overkill...

Todd Bradshaw

Ok
Let's talk in the next coupe days we'll get it scheduled

Good morning PJ
Are you around today
I was going to get [redacted] out there to take a reminder look at system and discuss with you

7:44 AM

Me

I'm on a call until 10. Im free the rest of the the day unless something catches fire .

9:36 AM

Todd Bradshaw

Ok I'll have [redacted] reach out
Prob this afternoon

Hi pj
I was going to invoice for work at your place and I only have a [redacted] email for you
Should I use that
The invoice is for the work we've done but does not include
Providing and hanging the boiler,flue work or gas piping
All other work is invoiced let me know if you have any questions
Thanks
Todd

11:15 AM

Me

Yeah
That email Is turned off. [redacted] I need to go through the old invoices and original contract. The combi Boulder was in the original bid, but I don't know it if ever got billed/paid..

Sounds good. I think you are 100% paid up on the original contracts. The boiler will not be on this invoice. Thanks, Todd

Hey Todd, I confused by this invoice. The install and materials for the combi are clearly in the original contract...
